Update - Nickel Brightness

OCTOBER 01, 2015

Barrel plating from our alternate plating facilities may tend to produce slightly different appearances. Finish may vary from a dull semi-bright to bright ductile finish. All product produced continue to meet all current RoHS, REACH and environmental certifications. Form, fit and function are not affected.

The following photos provide comparative finishes

Dull to Semi- Bright Finish (to be discontinued)	Bright Ductile Finish (standard finish)
	
For general comparison purposes only. Images may not provide a true representation of color. MHDE45ZK25K SHOWN ONLY FOR COMPARATIVE PURPOSES	

Product Part Numbers Affected

MHDE45ZK9XXX, MHDE45ZK15XXX, MHDE45ZK25XXX, MHDE45ZK37XXX, MHDE45ZK50K
MHDETZK9XXX, MHDETZK15XXX, MHDETZK25XXX, MHDETZK37XXX, MHDETZK50XXX.

Inventories with dull finishes will ship until depleted. We apologize for any confusion this may have caused.
