Subject: Concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH). Regulation (EC) No 1907/2006.

Dear Customer:

Northern Technologies is aware of the European Union REACH regulation which came into force 1st June 2007.

Under REACH we are considered a provider of “articles” which does not require registration.

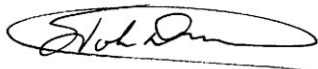

In addition, we do not meet the volume criteria that would require separate registration.

At the present time, to the best of our knowledge, we do not use any raw materials that contain the substances recently identified by the European Chemical Agency (ECHA) that are under consideration for inclusion in Annex XV as Substances of Very High Concern (SVHC).

We are however surveying our suppliers that fall under the scope of REACH with regards to applications to ensure continuous material flow.

Should you have any additional questions please contact Northern Technologies.

John DiPietro
